

Indiana Gang Network (INGangNetwork) is pleased to announce the deployment of the Gang Graffiti Automatic Recognition and Interpretation (GARI) in Indiana. This is a mutual effort between the Indiana Intelligence Fusion Center and Purdue University VACCINE.

GARI allows all law enforcement and criminal justice personnel that are members of INGangNetwork to take images of gang graffiti and tattoos using an Android or iPhone mobile application. The images are stored and indexed by time, location, and content. A web only version of GARI is also available.

Members may email gangs@iifc.in.gov -requesting access to GARI.

Include in your email:

-Name

-Government or LEO email address used by INGangNetwork

-Gmail email address

-Type of phone (Android or iPhone)

You will receive an email with the GARI download, instructions, your ID, and password.
